CEDAR MUSIC FOUNDATION PROGRAMME FOR 2-4 YEARS OLD

This is an exciting time! Your little ones of this age group are now able to communicate their thoughts and feelings with you, their brain is developing rapidly in all aspects and their personality and character are gradually shaped by their experiences!

This Cedar Music Foundation Programme is structured based on Cedar's proprietary, research-based curriculum. Your child will be exposed to different musical genres and musical instruments, through which they will systematically learn the seven elements of music, i.e. melody, pitch and harmony, dynamics, rhythm and tempo, expression, timbre and tone, texture and articulation.

The music-based activities focus on the holistic development of your child's mind, body and soul. This programme aims to support and nurture your child's various developmental skills including cognitive, intellectual, social-emotional, motor and sensory, communication, artistic potential as well as character.

AT LEAST ONE PARENT OR GUARDIAN IS REQUIRED TO ACCOMPANY THE CHILD.
